Mohammad Movahedi

Data Governance Professional | Technology , Telecommunication , Startup | MPS Data Analytics @ Northeastern University | Data Governance Analyst @ TELUS | Privacy Fellow @ OneTrust
Toronto, Ontario, Canada

Summary

I'm a Data Governance Analyst at TELUS, specializing in technology, risk management, and reporting. Currently pursuing a Master's in Data Analytics with focus on Machine Learning at Northeastern University, my academic journey includes a Bachelor's in Industrial Engineering from K.N.Toosi University. I bring diverse professional experience, from startup environments to IT consulting, reflecting my expertise in entrepreneurship and security.

In my role at TELUS, I've played a pivotal part in optimizing data governance practices, executing essential changes in OneTrust, and collaborating on cross-functional data quality initiatives. With proficiency in Python, JavaScript, and SQL, coupled with skills in data analytics and visualization tools, I contribute to the dynamic field of data science. Additionally, I hold a Six Sigma Black Belt certification, showcasing my commitment to process improvement and quality management.

I'm Passionate about creativity, management, and personal development, I actively engage in initiatives such as the NU Book Club and the Northeastern Data Scientists Society. Let's connect for discussions on data, technology, or collaborative opportunities!

Experience

TELUS

1 year 2 months

Data Governance Analyst

July 2023 - Present (8 months)

Toronto, Ontario, Canada

- Led the development and continuous enhancement of our custom PIA/SbD assessment tool and data mapping at TELUS, making it more robust through a

feedback loop I designed. I also assisted implementing CI/CD practices within our team, enhancing the overall experience and efficiency.

- Assisted the integration and management of legal and compliance requirements, focusing on GDPR, HIPAA, and Quebec Law 25 compliance, which included onboarding cookie consent managers into OneTrust. I also worked on a risk metadata tagging project by implementing controls based on policies and standards, focusing on risk management.
- Collaborated closely with SbD partners to refine their role assignments in OneTrust, enhancing the platform's functionality. Additionally, I was responsible for reporting on Key KPIs for the SbD team.
- Achieved OneTrust Fellow Certification, demonstrating comprehensive knowledge across all OneTrust modules, including GRC, consent management, cookie management, and incident management.

Data Governance Analyst Intern
January 2023 - July 2023 (7 months)
Toronto, Ontario, Canada

- Demonstrated leadership in developing and implementing data governance policies and procedures, leading to enhanced data quality and a reduction in data-related incidents. I collaborated with cross-functional teams to define and implement data quality rules and controls, improving decision-making and reducing data discrepancies.
- Conducted data quality assessments and audits to identify data quality issues and opportunities for improvement, leading to increased data accuracy and completeness. I also coordinated the development and maintenance of a data enablement plan, resulting in improved data consistency across the organization and faster data discovery.

Additional Achievements:

- Obtained a GRC certification, demonstrating a deep understanding of governance, risk, and compliance.
- Conducted data mapping and modeling exercises, leading to improved data consistency and governance across the organization.

- Successfully implemented OneTrust and API integrations, improving data governance and quality management processes.

Space Age

Entrepreneur In Residence

March 2022 - June 2022 (4 months)

Toronto, Ontario, Canada

As an Entrepreneur in Residence and startup mentor, I created and launched successful ventures. I evaluated investment opportunities and conducted market research to identify new business ideas. I provided strategic IT services and consulting expertise to businesses, implementing hardware, software, and cybersecurity solutions.

I analyzed data and identified trends to offer valuable insights and recommendations for IT-related topics. I communicated technical concepts in clear, concise language and managed projects from start to finish.

I developed effective business plans and go-to-market strategies for new ventures. I built and managed relationships with key stakeholders and represented organizations at industry events and conferences to promote their brands and attract new talent.

Nabz Va Darman Co.

5 years 10 months

IT and Office Administrator

May 2019 - December 2021 (2 years 8 months)

Tehran, Iran

I supervised the company's computer network, controlled information flow, and created a company database. In addition to working as an office administrator and receptionist during the evening shift, I made cold calls to potential and existing customers (drug retail stores) to manage sales flow in each store and promoted new offers based on customers' needs and the company's inventory.

I controlled warehouse inventory every night and morning, documenting and reporting the results. I evaluated sales reports from a team of 20, defined and controlled sales KPIs, and assigned targets for the sales team.

I collected customer survey data, analyzed and reported it, and presented survey results to board members. I also handled customer situations,

managed clients' concerns, and promoted offers to them. Let me know if you need any further information.

Sales Representative

March 2016 - April 2019 (3 years 2 months)

Tehran, Iran

Achieved and surpassed sales goals every season and every year

Assessed the needs of businesses and tailored the best available offer aligned with the sales target

Participated in gathering events to build lead pipelines

Cultural Organization of Tehran Municipality

Business Analyst

March 2017 - August 2017 (6 months)

Tehran, Iran

I assessed the financial state of the municipality's contractors, gaining practical experience in databases and methods of evaluating a company.

This role provided me with valuable insight into the relationship between the private sector and government, and how they collaborate. I also created and documented financial reports for some of the most well-known corporations in the advertisement industry.

Education

Northeastern University

Master's degree, Data analytics (Machine learning) · (2022 - 2024)

K. N. Toosi University of Technology

Bachelor of Science - BS, Industrial Engineering · (2015 - 2019)
